

Registration Statement
General VPDES Permit for Discharges of Stormwater from Construction Activities (VAR10)

(Please Type or Print All Information)

1. **Construction Activity Operator:** *(General permit coverage will be issued to this operator. The Certification in Item #12 must be signed by the appropriate person associated with this operator.)*

Name: _____

Contact: _____

Mailing Address: _____

City: _____ State: _____ Zip: _____ Phone: _____

Email address (if available): _____

Indicate if DEQ may transmit general permit correspondence electronically: Yes ☐ No ☐

2. **Existing General Permit Registration Number (for renewals only):** _____

3. **Name and Location of the Construction Activity:**

Name: _____

Address (if available): _____

City: _____ State: _____ Zip: _____

County (if not located within a City): _____

Latitude (decimal degrees): _____ Longitude (decimal degrees): _____

Name and Location of all Off-site Support Activities to be covered under the general permit:

Name: _____

Address (if available): _____

City: _____ State: _____ Zip: _____

County (if not located within a City): _____

Latitude (decimal degrees): _____ Longitude (decimal degrees): _____

4. **Status of the Construction Activity (check only one):** Federal ☐ State ☐ Public ☐ Private ☐

5. **Nature of the Construction Activity (e.g., commercial, industrial, residential, agricultural, oil and gas, etc.):**

6. **Name of the Receiving Water(s) and Hydrologic Unit Code (HUC):**

Name: _____ Name: _____

HUC: _____ HUC: _____

7. **If the discharge is through a Municipal Separate Storm Sewer System (MS4), the name of the MS4 operator:**

8. **Estimated Project Start and Completion Date:**

Start Date (mm/dd/yyyy): _____ Completion Date (mm/dd/yyyy): _____

9. **Total Land Area of Development (to the nearest one-hundredth acre):** _____

Estimated Area to be Disturbed (to the nearest one-hundredth acre): _____

10. **Is the area to be disturbed part of a larger common plan of development or sale?** Yes ☐ No ☐

11. **A stormwater pollution prevention plan (SWPPP) must be prepared in accordance with the requirements of the General VPDES Permit for Discharges of Stormwater from Construction Activities prior to submitting this Registration Statement. By signing this Registration Statement the operator is certifying that the SWPPP has been prepared.**

12. **Certification:** "I certify under penalty of law that I have read and understand this Registration Statement and that this document and all attachments were prepared in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment for knowing violations."

Printed Name: _____ Title: _____

Signature: _____ Date: _____

(Please sign in INK. This Certification must be signed by the appropriate person associated with the operator identified in Item #1.)

Instructions for Completing the Registration Statement

General VPDES Permit for Discharges of Stormwater from Construction Activities (VAR10)

GENERAL

A. Coverage Under this General Permit.

Any operator applying for coverage under this general permit who is required to submit a Registration Statement (see Section B below) must submit a complete Registration Statement to the Department. The Registration Statement serves as a Notice of Intent for coverage under the General VPDES Permit for Discharges of Stormwater from Construction Activities (VAR10).

B. Single-family Detached Residential Structures.

Operators with an existing stormwater discharge or proposing a new stormwater discharge associated with the construction of a single-family detached residential structure are not required to submit a Registration Statement or the Department of Environmental Quality (DEQ) portion of the general permit fee.

Operators of these types of discharges are authorized to discharge under this general permit immediately upon the general permit's effective date of July 1, 2014.

C. To Apply for Permit Coverage.

1. New Construction Activities. Any operator proposing a new stormwater discharge from construction activities shall submit a complete Registration Statement to the Department prior to the commencement of land disturbance, unless exempted by Section B above. Any operator proposing a new stormwater discharge from construction activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment is immediately authorized to discharge under this general permit and must submit a complete Registration Statement to the Department no later than 30 days after commencing land disturbance; documentation to substantiate the occurrence of the public emergency must accompany the Registration Statement.

2. Existing Construction Activities. Any operator that was authorized to discharge under the general permit issued in 2009, and who intends to continue coverage under this general permit, shall submit a complete Registration Statement to the Department on or before June 1, 2014, unless exempted by Section B above.

D. Where to Submit Registration Statements.

All Registration Statements should be submitted to:

Department of Environmental Quality
Office of Stormwater Management, 10th Floor
P.O. Box 1105
Richmond, VA 23218

LINE-BY-LINE INSTRUCTIONS

Item 1: Construction Activity Operator Information.

"Operator" means the owner or operator of any facility or activity subject to the Stormwater Management Act and regulations. In the context of stormwater associated with a large or small construction activity, operator means any person associated with a construction project that meets either of the following two criteria: (i) the person has direct operational control over construction plans and specifications, including the ability to make modifications to those plans and specifications or (ii) the person has day-to-day operational control of those activities at a project that are necessary to ensure compliance with a stormwater pollution prevention plan for the site or other state permit or VSMP authority permit conditions (i.e., they are authorized to direct workers at a site to carry out activities required by the stormwater pollution prevention plan or comply with other permit conditions).

The entities that are considered operators will commonly consist of the owner or developer of a project (the party with control of project plans and specifications) or the general contractor (the party with day to day operational control of the activities at the project site which are necessary to ensure compliance with the general permit).

Provide the legal name (do not use a colloquial name), contact, mailing address, telephone number, and email address (if available) of the construction activity operator; general permit coverage will be issued to this operator. Indicate if the Department may transmit general permit correspondence electronically.

Item 2: Existing General Permit Registration Number.

For reapplications only, provide the existing general permit registration number for the construction activity. This item does not need to be completed for new construction activities applying for general permit coverage.

Item 3: Name and Location of the Construction Activity Information.

Provide the official name, street address (if available), city or county (if not located within a City) of the construction activity. Also, provide the latitude and longitude in decimal degrees of the approximate center of the construction activity (e.g., N 37.5000, W 77.5000).

Name and Location of Off-site Support Activity Information.

This general permit also authorizes stormwater discharges from support activities (e.g., concrete or asphalt batch plants, equipment staging yards, material storage areas, excavated material disposal areas, borrow areas) located on-site or off-site provided that (i) the support activity is directly related to a construction activity that is required to have general permit coverage; (ii) the support activity is not a commercial operation, nor does it serve multiple unrelated construction activities by different operators; (iii) the support activity does not operate beyond the completion of the construction activity it supports; (iv) the support activity is identified in the registration statement at the time of general permit coverage; (v) appropriate control measures are identified in a SWPPP and implemented to address the discharges from the support activity areas; and (vi) all applicable state, federal, and local approvals are obtained for the support activity.

Provide the official name, street address (if available), City and County (if not located within a City) of all off-site support activities to be covered under this general permit. Also, provide the latitude and longitude in decimal degrees of the approximate center of the off-site support activities (e.g., N 37.5000, W 77.5000). Also, if an off-site support activity is going to be covered under this general permit the total land area of the off-site support activity and the estimated area to be disturbed by the off-site support activity need to be included in Item #9.

Item 4: Status of the Construction Activity.

Indicate the appropriate status (Federal, State, Public, or Private) of the construction activity.

Item 5: Nature of the Construction Activity.

Provide a brief description of the construction activity, such as commercial, residential, agricultural, oil and gas, etc. This list is not all inclusive.

Item 6: Receiving Waters(s) and HUC Information.

Provide the name of the receiving water(s) and corresponding HUC for all stormwater discharges including any stormwater discharges from off-site support activities to be covered under this general permit. Hydrologic Unit Code or HUC is a watershed unit established in the most recent version of Virginia's 6th order national watershed boundary dataset.

Item 7: MS4 Information.

If stormwater is discharged through a municipal separate storm sewer system (MS4), provide the name of the MS4 operator. The name of the MS4 operator is generally the Town, City, County, Institute or Federal facility where the construction activity is located.

Item 8: Construction Activity Start and Completion Date Information.

Provide the estimated start date (month/day/year) of the construction activity. Provide the estimated completion date (month/day/year) of the construction activity.

Item 9: Construction Activity Area Information.

Provide the total area (to the nearest one-hundredth acre) of the development (i.e., the total acreage of the larger common plan of development or sale). Include the total acreage of any off-site support activity to be covered under this general permit.

Provide the estimated area (to the nearest one-hundredth acre) to be disturbed by the construction activity. Include the estimated area of land disturbance that will occur at any off-site support activity to be covered under this general permit.

Item 10: Common Plan of Development or Sale Information.

Indicate if the area to be disturbed by the construction activity is part of a larger common plan of development or sale. Larger common plan of development or sale is defined as a contiguous area where separate and distinct construction may be taking place at different times on different schedules. Plan is broadly defined as any announcement or documentation, including a sign, public notice or hearing, sales pitch, advertisement, drawing, permit application, zoning request, etc., or physical demarcation such as boundary signs, lot stakes, or surveyor markings indicating that construction activities may occur.

Item 11: Stormwater Pollution Prevention Plan (SWPPP).

A Stormwater Pollution Prevention Plan (SWPPP) must be prepared in accordance with the requirements of the General VPDES Permit for Discharges of Stormwater from Construction Activities (VAR10) prior to submitting this Registration Statement. By signing this Registration Statement the operator is certifying that the SWPPP has been prepared.

Item 12: Certification.

A properly authorized individual associated with the operator identified in Item 1 of the Registration Statement is responsible for certifying and signing the Registration Statement. **Please sign the Registration Statement in INK.**

State statutes provide for severe penalties for submitting false information on the Registration Statement. State regulations require that the Registration Statement be signed as follows:

a. For a corporation: by a responsible corporate officer. For the purpose of this part, a responsible corporate officer means:

(i) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy-making or decision-making functions for the corporation, or

(ii) the manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions that govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to assure long-term compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements; and where authority to sign documents has been

assigned or delegated to the manager in accordance with corporate procedures.

b. For a partnership or sole proprietorship: by a general partner or the proprietor, respectively.

c. For a municipality, state, federal, or other public agency: by either a principal executive officer or ranking elected official. For purposes of this part, a principal executive officer of a public agency includes:

(i) The chief executive officer of the agency, or

(ii) A senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency.

VSMP Application Requirements

Land Disturbance, greater than 2,500sq.ft to less than 1AC:

Single Family Development

- ☐ City of Fairfax VSMP Permit Application
- ☐ Plans
- ☐ VSMP Checklist
- ☐ BMP Agreement (if applicable)
- ☐ \$290 fee check

All Other Non-SFD LDAs (Commercial, Common Plan of Development, Etc.)

- ☐ City of Fairfax VSMP Permit Application
- ☐ Plans
- ☐ Site Plan Checklist
- ☐ BMP Agreement (if applicable)
- ☐ **SWPPP**
- ☐ \$290 fee check

Chesapeake Bay Preservation Act Land-Disturbing Activity.
Land Disturbance = 2500sq.ft to less than 1 acre

\$290

Areas within common plans of development or sale
(except for single family detached homes)
Land Disturbance = 2500sq.ft to less than 1 acre

\$290

Land Disturbance, 1AC or more:

All LDAs, 1AC or More

- ☐ DEQ VAR10 Registration Statement
- ☐ DEQ VAR10 Notice of Termination
- ☐ Plans
- ☐ Site Plan Checklist
- ☐ BMP Agreement (if applicable)
- ☐ **SWPPP**
- ☐ Fee per schedule below

Small Single Family Detached Home Construction
Land Disturbance = 1 acre to less than 5 acres

\$209

Land Disturbance = 1 acre to less than 5 acres

\$2,700

Land Disturbance = 5 acres to less than 10 acres

\$3,400

Land Disturbance = 10 acres to less than 50 acres

\$4,500

Land Disturbance = 50 acres to less than 100 acres

\$6,100

Land Disturbance = greater than 100 acres

\$9,600

NOTE: All VSMP application fees are to be submitted on a separate check.

Virginia Stormwater Management Program (VSMP) Checklist

Stormwater Pollution Prevention Plan (SWPPP) Contents:

YES	NO	N/A	DESCRIPTION	PAGE #
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	SWPPP package complete	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	An erosion and sediment control plan consistent with the requirements of the Virginia Erosion and Sediment Control Law and regulations must be designed and implemented during construction activities. Prior to land disturbance, this plan must be approved by either the VESCP authority or the department in accordance with the Virginia Erosion and Sediment Control Law and attendant regulations.	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	A stormwater management plan consistent with the requirements of the Virginia Stormwater Management Act and regulations must be designed and implemented during construction activities. Prior to land disturbance, this plan must be approved by the City of Fairfax.	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	A pollution prevention plan that identifies potential sources of pollutants that may reasonably be expected to affect the quality of stormwater discharges from the construction site and describe control measures that will be used to minimize pollutants in stormwater discharges from the construction site must be developed before land disturbance commences.	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	If a specific wasteload allocation (WLA) for a pollutant has been established in an approved TMDL and is assigned to stormwater discharges from a construction activity, additional control measures must be identified and implemented by the operator so that discharges are consistent with the assumptions and requirements of the WLA.	

NOTE: The SWPPP shall be amended whenever there is a change in design, construction, operation or maintenance that has a significant effect on the discharge of pollutants to state waters and that has not been previously addressed in the SWPPP. The SWPPP must be maintained at a central location onsite. If an onsite location is unavailable, notice of the SWPPP's location must be posted near the main entrance at the construction site.

Virginia Stormwater Management Program (VSMP) Checklist

Pollution Prevention Plan (PPP) Contents:

YES	NO	N/A	DESCRIPTION	PAGE #
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	A pollution prevention plan, as required by 9VAC25-870-56 , shall be developed, implemented and updated as necessary and must detail the design, installation, implementation and maintenance of effective pollution prevention measures to minimize the discharge of pollutants.	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Minimize the discharge of pollutants from equipment and vehicle washing, wheel wash water and other wash waters Wash waters must be treated in a sediment basin or alternative control that provides equivalent or better treatment prior to discharge.	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Minimize the exposure of building materials, building products, construction wastes, trash, landscape materials, fertilizers, pesticides, herbicides, detergents, sanitary waste and other materials present on the site to precipitation and to stormwater	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	The pollution prevention plan shall include effective best management practices to prohibit the following discharges: <ul style="list-style-type: none"> (a) Wastewater from washout of concrete, unless managed by an appropriate control (b) Wastewater from washout and cleanout of stucco, paint, form release oils, curing compounds and other construction materials (c) Fuels, oils or other pollutants used in vehicle and equipment operation and maintenance (d) Soaps or solvents used in vehicle and equipment washing 	

NOTE: Discharges from dewatering activities, including discharges from dewatering of trenches and excavations, are prohibited unless managed by appropriate controls.

General Permit for Discharges of Stormwater from Construction Activities (VAR10)
Notice of Termination

(Please Type or Print All Information)

1. Construction Activity Operator:

Name: _____
Mailing Address: _____
City: _____ State: _____ Zip: _____ Phone: _____
Email address (if available): _____

2. Location of Construction Activity (As listed on registration statement):

Name: _____
Address: _____
City: _____ State: _____ Zip: _____
County: _____
If street address unavailable: Latitude _____ Longitude _____

3. Stormwater General Permit Number: _____

4. The Reason for Terminating Coverage Under the General Permit (The construction activity operator may only submit a Notice of Termination after one or more of the conditions below have been met):

- ☐ A. Necessary post-construction control measures included in the SWPPP for the site are in place and functioning effectively and final stabilization has been achieved on all portions of the site for which the operator is responsible;
- ☐ B. Another operator has assumed control over all areas of the site that have not been finally stabilized and obtained coverage for the ongoing discharge;
- ☐ C. Coverage under an alternative VPDES or State permit has been obtained; or
- ☐ D. For residential construction only, temporary stabilization has been completed and the residence has been transferred to the homeowner.

The Notice of Termination must be submitted within 30 days of one of the above conditions being met. Authorization to discharge terminates at midnight on the date that the Notice of Termination is submitted for conditions B through D above. Authorization to discharge terminates upon notification from the Department or 60 days after the submittal of the Notice of Termination (whichever occurs first) for condition A above.

5. Permanent Control Measures Installed: Attach a list of permanent control measures (both structural and non-structural) that were installed at the construction site. For each control measure, include the following information: (a) Type of control measure installed and the date that it became functional as a permanent control measure; (b) Geographic location (county or city and Hydrologic Unit Code) (latitude and longitude may additionally be included if available); (c) Waterbody the control measure discharges into; and, (d) Number of acres that will be treated (to the nearest one-tenth of an acre).

If no permanent control measures were installed please check this box ☐.

6. Participation in a Regional Stormwater Management Plan: Where applicable, attach the following information related to participation in a regional stormwater management plan: (a) Type of regional facility to which the site discharges; (b) Geographic location of any regional facility to which the site discharges (county or city and Hydrologic Unit Code); (c) Geographic location of the site (county or city and Hydrologic Unit Code) (latitude and longitude may additionally be included if available); and (d) Number of acres treated by a regional facility.

7. Nutrient Offsets: Where applicable, attach the following information related to nutrient offsets that were acquired in accordance with §62.1-44.15:35 of the Code of Virginia: (a) Name of the broker from which offsets were acquired; (b) Geographic location (county or city and Hydrologic Unit Code) of the broker's offset generating facility; (c) Number of nutrient offsets acquired (lbs. per acre per year); and (d) Nutrient reductions achieved on site (lbs. per acre per year).

8. Certification:

"I certify under penalty of law that I have read and understand this notice of termination and that this document and all attachments were prepared in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment for knowing violations."

Print Name: _____ Title: _____

Signature: _____ Date: _____

(Please sign in INK. The person signing this form must be associated with the operator identified in Item #1 above.)

Mail to: Department of Environmental Quality, Office of Stormwater Management, 10th Floor, P.O. Box 1105, Richmond, VA 23218

INSTRUCTIONS for FORM DEQ 199-147
General Permit Notice of Termination - Construction Activity Stormwater Discharges

General

A Notice of Termination must be submitted when an operator no longer wishes to be covered under the General Permit for Stormwater Discharges from Construction Activities.

Mail to: Department of Environmental Quality
Office of Stormwater Management, 10th Floor
P.O. Box 1105
Richmond, VA 23218

Section 1 Activity Operator Information

Give the legal name of the person, firm, public organization, or any other entity that was issued the general permit for the site described in this Notice of Termination. Do not use a colloquial name. Enter the complete address and phone number of the operator.

Section 2 Activity Location Information

Enter the activity's official name and complete street address, including city (or town), county (if not located within a City), state and ZIP code. If the site lacks a street address, enter the city (or town), county (if not located within a City) and the latitude and longitude in degrees, minutes, seconds (DMS).

Section 3 Permit Information

Enter the existing Stormwater General Permit Number assigned to the activity or site identified in Section 1 that the operator wishes to be terminated.

Section 4 Reason for Termination

Check the appropriate statement indicating the reason for submitting this Notice of Termination. The Notice of Termination may only be submitted after one or more of the following conditions have been met:

- A. Necessary post-construction control measures included in the SWPPP for the site are in place and functioning and final stabilization has been achieved on all portions of the site for which the operator is responsible;
- B. Another operator has assumed control over all areas of the site that have not been finally stabilized;
- C. Coverage under an alternative VPDES or State permit has been obtained; or
- D. For residential construction only, temporary stabilization has been completed and the residence has been transferred to the homeowner.

The Notice of Termination must be submitted within 30 days of one of the above conditions being met.

Section 5 Permanent Control Measures Installed

Attach a list of the permanent control measures (both structural and non-structural) that were installed at the construction site. For each control measure, include the following information:

- (a) Type of control measure installed;
- (b) Geographic location (county or city and Hydrologic Unit Code);

- (c) Waterbody the control measure discharges into; and,
- (d) Number of acres that will be treated (to the nearest one-tenth of an acre).

If no permanent control measures were installed, please check the box at the end of this section.

Section 6 Participation in a Regional Stormwater Management Plan

Where applicable, attach the following information related to participation in a regional stormwater management plan: (a) Type of regional facility to which the site discharges; (b) Geographic location of any regional facility to which the site discharges (county or city and Hydrologic Unit Code); (c) Geographic location of the site (county or city and Hydrologic Unit Code) (latitude and longitude may additionally be included if available); and, (d) Number of acres treated by a regional facility.

Section 7 Nutrient Offsets

Where applicable, attach the following information related to nutrient offsets that were acquired in accordance with §62.1-44.15:35 of the Code of Virginia: (a) Name of the broker from which offsets were acquired; (b) Geographic location (county or city and Hydrologic Unit Code) of the broker's offset generating facility; (c) Number of nutrient offsets acquired (lbs. per acre per year); and (d) Nutrient reductions achieved on site (lbs. per acre per year).

Section 8 Certification

State statutes provide for severe penalties for submitting false information on this Notice of Termination. State regulations require this Notice of Termination to be signed as follows:

For a corporation: by a responsible corporate officer. For the purpose of this section, a responsible corporate officer means: (1) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy- or decision-making functions for the corporation, or (2) the manager of one or more manufacturing, production, or operating facilities provided the manager is authorized to make management decisions which govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to assure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

For a partnership or sole proprietorship: by a general partner or the proprietor.

For a municipality, state, federal, or other public agency: by either a principal executive officer or a ranking elected official.

The Department of Environmental Quality reserves the right to request additional information not directly addressed by the registration statement if, in its discretion, a facility or operation poses a potential impact on water quality.
